Greetings from the President

As manifested by the ramifications of COVID-19, the world we inhabit has become increasingly complex, fluid, and uncertain, and failure to adapt to changing environmental, economic and social conditions invariably results in decline. In this precarious setting, Nagoya University, as a centre of science and knowledge, regards it a fundamental mission to educate its students to be rational and creative global human resources, individuals who are able to meet the needs of society's constantly shifting demands.

Naturally, the University considers the internationalisation of education to be indispensable to the nurturing of globally-minded citizens. In line with Government policy, Nagoya University has set the ambitious target of increasing its intake of international students to 3,200, that is twenty percent of the total student population. Furthermore, as a Ministry of Education-designated "Top Global University", we have taken a national lead in implementing a range of internationalisation projects that will fundamentally alter traditional practices in Japanese higher education.

Nagoya University has long been an undisputed leader in Japan's higher education sector, a status cemented by its appointment in 2018 as a "Designated National University", one of only six such institutions in the country. Indeed, six Nobel Prizes serve to demonstrate Nagoya University's prowess in cultivating world-class researchers. This and other achievements may be attributed to the free and vibrant academic culture that has come to define this University, and one that we wish to share with you.

Never satisfied with the status quo, Nagoya University is constantly evolving. In 2020, it took a groundbreaking step by launching the 'Tokai National Higher Education and Research System', thus bringing together two academic institutions of excellence, Nagoya University and Gifu University, into a single National University Corporation, the first such experiment nationwide.

Established in 1996, NUPACE, the Nagoya University Program for Academic Exchange, constitutes both a frontrunner and intrinsic element of our continued endeavour to internationalise. As is evident in this brochure, the programme has accrued a wealth of experience in its thirty years of operation, and evolved into a highly reputable student exchange undertaking, both domestically and internationally. NUPACE will afford you the opportunity to simultaneously enjoy a quality academic curriculum, discover Japan and, most importantly, to nurture a fundamentally international approach to life.

Naoshi Sugiyama
President, Nagoya University

Nagoya – the City and the University

The Chubu region, located in the heart of Japan, has played a central role in this nation’s history, and has for long prospered under a flourishing culture and economy. The area is particularly renowned as the home of Oda Nobunaga, Toyotomi Hideyoshi and Tokugawa Ieyasu, the three military leaders who unified Japan over 400 years ago, thus bringing an end to the ‘Period of Warring States’. Nagoya Castle, originally built by Tokugawa Ieyasu and famous for the mythological golden dolphins found on its donjon, serves as the landmark of the region. Its castle town, Nagoya, has thrived.

In contemporary Japan, this vibrant metropolis occupies an important political and economical position. Nagoya constitutes the nerve centre of the Chubu Industrial Zone, an amalgamation of both traditional and modern enterprises, notable amongst which is the automobile industry. Moreover, with a population of over 2.3 million inhabitants, it offers the conveniences of any large urban centre, with shops, restaurants, and leisure activities to cater to any taste. It is an exciting place to live, work and study, and fittingly, in 2026, will play host to the 20th Asian Games.

Although Nagoya University’s history can be dated back to 1871, when a medical school and hospital were founded on the site of a local feudal government house, it was in 1939 that the university was formally established as Japan’s seventh imperial university. Since 1949, after its re-emergence in the reformed post-war education system, Nagoya University has not only developed as the pre-eminent educational establishment in the Chubu region, it has also flourished as one of the foremost national universities in Japan. In its *World University Rankings 2026*, Times Higher Education ranked Nagoya University as the sixth strongest university nation-wide.

Currently, Nagoya University consists of nine undergraduate schools and thirteen graduate schools, three research institutes and twenty-one interdepartmental research and education centres. Approximately 16,000 students are enrolled at the university, 2,500 of whom form a lively international community. The teaching, research, and administrative staff numbers about 3,200.

In recent years, Nagoya University has become conspicuous amongst national universities through its enhanced level of international competitiveness. This University was selected by the Ministry of Education to be a “Global 30” hub, one of only thirteen institutions nationwide, which, in the period FY 2009-2014, were granted a substantial budget to implement broad-ranging internationalisation initiatives. Furthermore, as a consistent recipient of JSPS Global Center of Excellence awards, as well as prominent contributor to Japan’s cultivation of Nobel Laureates, Nagoya University has a proven track record of research that performs at the apex of global excellence. As of FY 2014, Japan’s Government has designated the University as a Rank A “Top Global University”, giving testimony to its calibre as a first-class institution of higher education. And, in 2018, it was appointed a “Designated National University” by the Ministry of Education (MEXT), one of only seven such institutions in Japan, the other five comprising The University of Tokyo, Kyoto University, Tohoku University, Tokyo Institute of Technology, Osaka University, and Hitotsubashi University. Moreover, as recently as 2024, Nagoya University was one of three universities selected for MEXT’s “Multicultural Campus Project Toward Social Impact (Overseas Bases Type)”, an achievement that will further enhance its presence on the international stage.

Whilst fostering an academic tradition of freedom and tolerance, today’s Nagoya University is a national leader in the quest to meet the challenges of the 21st century.

Nagoya Castle

Nagoya University Program for Academic Exchange (NUPACE)

The Nagoya University Program for Academic Exchange (NUPACE) offers a flexible curriculum, encompassing a broad array of English- and Japanese-taught courses in the student's major, as well as Japanese language instruction. The programme endeavours to internationalise through education and research, forge networks that extend beyond borders, and foster talented individuals capable of contributing positively to the international society of tomorrow.

Eligibility

Overseas students who meet the following conditions are eligible to apply for NUPACE:

1. Students **MUST** be enrolled in undergraduate or graduate degree programmes at overseas universities that have concluded an academic exchange agreement with Nagoya University. Refer to pp. 27-34.
2. Students **MUST** have a cumulative grade point average (GPA) of 3.0 (B) or better on a 4.0 scale, or the equivalent.
3. NUPACE requires exchange students to be proficient in either English OR Japanese.

Unless they attend/have attended universities where English is the language of instruction, non-native English speakers who wish to participate in the NUPACE English-language curriculum should possess a minimum TOEFL (iBT) score of 79, an IELTS overall band score of 6.0, a TOEIC score of 780, CEFR band B2, CET-6 score of 485, or the equivalent.*

*Students studying at universities in Scandinavia, The Netherlands, Germany, Austria, Hong Kong, Singapore, or at Bilkent University in Turkey are exempt from providing proof of their English language ability. The same applies to those students who have undertaken part of their formal education in English, and those whose major discipline at university is English.

Students intending to take regular university courses instructed in Japanese must possess level N1 or 1 of the Japanese Language Proficiency Test (JLPT), or the equivalent.

Student Status

1. Undergraduate Students:

- (1) Undergraduate students, who are admitted to the NUPACE programme to complete taught courses with the aim of earning credits, shall hold *Special Undergraduate Student* status.
- (2) Undergraduate students, who are admitted to the NUPACE programme to participate in a medical clerkship at the School of Medicine, shall hold *Short-term Training Student* status.

2. Graduate Students:

- (1) Graduate students, who are admitted to the programme to complete taught courses with the aim of earning credits, shall hold *Special Graduate Student* status.
- (2) Graduate students who do not require credits, and who wish to be admitted to the programme to engage primarily in guided research, shall hold *Special Research Student* status. This status is applicable to students registered for both master's programmes and doctorates at their home universities. In principle, students enrolled in doctorates at the time of application will automatically be given "special research student" status.
- (3) Graduate students, who are admitted to the NUPACE programme to participate in a medical clerkship at the School of Medicine, shall hold *Special Research Student* status.

Academic Programme

The NUPACE programme, in offering regular 'major' courses taught both in English and Japanese, is equally suited to the needs of those students with no previous Japanese language instruction, and those who have attained level N1 of the Japanese Language Proficiency Test (JLPT).

1. Courses in the Student's 'Major'

Students are able to pursue their major field of study through a wide spectrum of established courses (see pp. 5-12).* The core NUPACE curriculum is taught primarily in English, although

students who demonstrate sufficient Japanese language ability (level N1 of the JLPT) may enrol in regular courses taught in Japanese.

*Due to the limited duration of their exchange and subsequent concerns over safety protocols, NUPACE *Special Undergraduate Students* and *Special Graduate Students* are not permitted to enrol in courses with laboratory content in the disciplines of Chemistry and Physics taught by the School of Science, and Chemistry taught by the School of Engineering.

2. Guided Independent Study (GIS)

Contingent upon the permission and cooperation of their academic advisors, NUPACE *Special Undergraduate Students* and *Special Graduate Students* may pursue independent research in their major field of study for a limited number of credits. Unless recommended by the student's academic advisor, this option is usually only available from the student's second semester of study at Nagoya University.

3. Japanese Language Programme

Nagoya University offers a comprehensive Japanese language programme that serves learners across the full spectrum of proficiency, from beginner to advanced. Courses from the intermediate level upwards may be taken for credit, and a specialised range of classes — including Business Japanese, Academic Japanese, and introductory courses delivered in Japanese — is also provided.

Credits

The minimum coursework requirement for *Special Undergraduate Students* and *Special Graduate Students* is fifteen credits (equivalent to thirty ECTS) per semester or thirty credits (sixty ECTS) per year. *Special Research Students* are required to pursue research for a minimum of fifteen hours per week. At the end of their period of exchange, all NUPACE students having earned credits are presented with an official transcript of academic records specifying courses studied, evaluation of performance and credits awarded. The number of credits granted is determined by the academic regulations of Nagoya University and is based on the number of hours studied. Upon examining the academic

transcript, the student's home institution may determine the appropriate number of credits to be granted at that institution. Prospective students are asked to note that the granting of credits for the purpose of earning a degree falls under the jurisdiction of the student's home institution.

Students admitted to the NUPACE programme earn grades according to the following scale.

Nagoya University Grading System			
Grade	Grade Point Value	Score/100 (For reference only)	Definition (For reference only)
A+	4.3	95-100	Excellent
A	4.0	80-94	Very Good
B	3.0	70-79	Good
C	2.0	65-69	Satisfactory
C-	1.0	60-64	Sufficient
F	0.0	0-59	Fail
W	-	-	Withdrawal

Schools of Affiliation and Academic Advisor

All NUPACE students are affiliated to a School corresponding to their major area of study. In principle, a full-time faculty member whose field of specialisation is close to that of the student's 'major' will be assigned to each student as his/her academic advisor.

Academic Calendar

The academic year at Nagoya University is divided into spring and autumn semesters:

Schools at Nagoya University:

Undergraduate	Graduate
Agricultural Sciences	Bioagricultural Sciences
Economics	Economics
Education	Education and Human Development
Engineering	Engineering
-	Environmental Studies
Humanities	Humanities
Informatics	Informatics
-	International Development
Law	Law
-	Mathematics
Medicine	Medicine
-	Pharmaceutical Sciences
Science (including Mathematics)	Science

1. Autumn Semester 2026

Class Schedule

2 October 2026 - 5 February 2027

Winter Vacation

28 December 2026 - 5 January 2027

Spring Vacation

6 February 2027 - 31 March 2027

Students joining the NUPACE programme in autumn 2026 are required to arrive in Japan from September 16 for pre-class orientation sessions.

2. Spring Semester 2027

Class Schedule (tentative)

9 April 2027 - 6 August 2027

Summer Vacation

7 August 2027 - 30 September 2027

Students joining the NUPACE programme in spring 2027 are required to arrive in Japan from April 1 for pre-class orientation sessions.

NB. The above dates may be subject to minor changes.

Overview of the NUPACE Academic Programme

OVERVIEW OF THE NUPACE ACADEMIC PROGRAMME

Nagoya University offers a broad and flexible curriculum in both English and Japanese, giving NUPACE students access to a wide array of academic opportunities. Provided they meet the necessary academic and language requirements, students may tailor their semester- or year-long study plans by selecting from, 1) the wide-ranging spectrum of English-taught courses, provided both by the individual Schools and Institute of Liberal Arts and Sciences (ILAS), 2) Japanese language courses, and 3) regular courses taught in Japanese.

A. Courses in the Student's Major (English-taught)

The following Schools at Nagoya University offer English-taught courses to NUPACE students:

- School of Humanities (U)/ Graduate School of Humanities (G)
- School of Education (U)/ Graduate School of Education and Human Development (G)
- School of Law (U)/ Graduate School of Law (G)
- School of Economics (U)/ Graduate School of Economics (G)
- Graduate School of International Development (G)
- School of Informatics (U)/ Graduate School of Informatics (G)
- School of Science (U)/ Graduate School of Science (G)
- Graduate School of Mathematics (G)
- School of Engineering (U)/ Graduate School of Engineering (G)
- School of Agricultural Sciences (U)/ Graduate School of Bioagricultural Sciences (G)
- Graduate School of Environmental Studies (G)
- Institute of Liberal Arts and Sciences (ILAS)

The majority of courses at Nagoya University are semester-based, with each course being taught in a ninety-minute session per week for a total of fifteen weeks. Most courses carry a workload of two Nagoya University credits, equivalent to four ECTS.

The courses below were offered to NUPACE students in the academic year 2025. Please note that it is a tentative list, and that not all courses can be expected to be offered in 2026-2027. Graduate courses marked with <G> are restricted to graduate students.

1. School of Humanities (U)/Graduate School of Humanities (G)

B. Japanese Language Education

NB. Whilst these courses will continue to be offered, effective as of autumn 2026, *elementary* to *pre-intermediate* Japanese language classes may no longer be available for credit. Prospective students should take this into account when devising their study plans. Any revision to the content of the Japanese language programme will be announced on the NUPACE website at <https://nupace.iee.nagoya-u.ac.jp/en/>.

Japanese Language Programmes

University-wide Japanese (UJ) (0 credits)	Levels 100-400 (<i>Elementary ~ Pre-intermediate</i>) (A/S)
University-wide Japanese (UJ) (2-10 credits)	Levels 500-700 (<i>Intermediate ~ Advanced</i>) (A/S)
G30 Japanese Language (2 credits each)	<i>Intermediate to Advanced</i>
	Academic Japanese 3 (A)
	Academic Japanese 5 (<i>Kanji</i> 2200) (A)
	Academic Japanese 4 (S)
	Academic Japanese 5 (<i>Kanji</i> 2200) (S)
	Business Japanese 1, 3 (A)
	Business Japanese 2, 4 (S)

Introductory Courses Taught in Japanese

2 credits each	Japanese Language and Communication I, II <J> (A/S)
	Japanese Literature I, II <J> (A/S)

<J> = Taught in Japanese (A) Offered in Autumn (S) = Offered in Spring

C. Courses in the Student's Major (Japanese-taught)

Provided that they have a suitable academic background and possess level N1 (or 1) of the Japanese Language Proficiency Test (JLPT), students participating in NUPACE are eligible to register for regular courses taught in Japanese. Access to online information on individual schools and departments is available at <https://www.nagoya-u.ac.jp/sch-list/index.html>

The following is a list of Nagoya University's schools and corresponding departments. Access <https://syllabus.adm.nagoya-u.ac.jp/> for course syllabi.

Undergraduate Programmes

Agricultural Sciences:	Applied Biosciences; Bioenvironmental Sciences; Bioresource Sciences
Economics:	Theoretical Economics; Applied Economics; Corporate Management; Information Accounting
Education:	Human Developmental Sciences; School Education and Information Science; International Education and Culture; Human Psychology; Counselling and Psychotherapy
Engineering:	Chemical and Biological Engineering; Civil Engineering and Architecture; Electrical, Electronic and Information Engineering; Mechanical and Aerospace Engineering; Physical Science and Engineering
Humanities:	Literature and Linguistics, Philosophy and Ethics; History and Anthropological Studies; Environmental and Behavioural Science
Informatics:	Natural Informatics (Mathematical Informatics, Complex System Science) Computer Science (Computing and Software Systems, Intelligent Systems) Human and Social and Informatics (Social Informatics, Cognitive and Psychological Science)
Law:	Fundamental Positive Law; Fundamental Political Science; Contemporary Legal Disciplines; Dispute Settlement Law; Business Economics Law; Public Policy; International Relations; Legal and Administrative Informatics
Medicine:	Medicine Health Sciences (Medical Technology; Nursing; Occupational Therapy; Physical Therapy; Radiological Technology);
Science:	Biological Science; Chemistry; Earth and Planetary Sciences; Mathematics; Physics
Liberal Arts & Sciences:	A broad range of courses spanning the humanities, social sciences, natural sciences, and engineering, including modules in foreign languages and physical education.

Graduate Programmes

Bioagricultural Sciences:	Applied Molecular Biosciences; Bioengineering Sciences; Biological Mechanisms and Functions; Biosphere Resources Science
Economics:	Analysis of Markets and Institutions; Socio-economic Analysis; Analysis of the System of Policy Making; Socio-Environmental System; Corporate System; Management Innovation; Creation of Information
Education and Human Development:	Lifelong Education and Development; School Education and Information Sciences; Foundations of Education and Human Development; Higher Education; Sports and Exercise Science; Psychological Sciences; Human Development and Clinical Psychology; Sports Behavioural Sciences
Engineering:	Aerospace Engineering; Applied Chemistry, Chemical Engineering and Biotechnology; Civil Engineering; Computational Science and Engineering; Crystalline Materials Science; Electrical Engineering and Computer Science; Energy Engineering and Science; Materials, Physics and Energy Engineering; Mechanical Science and Engineering; Micro-Nano Systems Engineering; Molecular Design and Engineering; Quantum Engineering
Environmental Studies:	Earth and Environmental Sciences; Environmental Engineering and Architecture; Social and Human Environment
Humanities:	Historical and Cultural Studies (Japanese History, Asian History, Western History, Aesthetics and Art History; Archaeology; Cultural Anthropology; Cinema and Visual Culture; Japanese Culture; Cultural Studies, Gender Studies) Linguistics and Cultural Studies (Linguistics, Japanese Linguistics, Japanese Literature, English Language, English Literature, German Language/Literature, French Language/Literature, Chinese Language/Literature, Japanese Language Education, English Language Education, Applied Linguistics, Philosophy, Western Classics, Chinese Philosophy, Indian Philosophy)
Informatics:	Mathematical Informatics; Complex Systems Science; Social Informatics, Cognitive and Psychological Science, Computing and Software Systems; Intelligent Systems
International Development:	International Co-operation Studies; International Development
Law:	Core Law and Political Science; Contemporary Legal Systems; International Comparative and Political Science; Asian Law and Political Science
Mathematics:	Fundamental Mathematics; Natural Mathematics; Social Mathematics; Computational Mathematics; Advanced Topology
Medicine:	Cell Information Medicine; Function Construction Medicine; Health and Community Medicine; Integrated Molecular Medicine; Medical Science/Medical Administration Nursing; Radiological and Medical Laboratory Sciences; Physical and Occupational Therapy
Pharmaceutical Sciences:	Basic Medicinal Sciences Organic Chemistry; Bioscience; Structural Biology)
Science:	Biological Science; Material Science; Particle and Astrophysical Science

A

pplication Procedures

Students intending to participate in an exchange at Nagoya University are requested to apply to NUPACE online at <https://nupace.iee.nagoya-u.ac.jp/apply/>. All applicants are asked to note that, in order to be qualified for admission to NUPACE, they must, in advance, secure a nomination from the International Office of their home institution.

When applying students will be asked to upload some documentation in a PDF format; hence, preparation of the relevant materials in advance of the closing dates stipulated below is important.

1. Study/Research plan:

(1) Undergraduate <U> and Graduate <G> credit-seeking students:

Provide a concrete description of your academic interests. This should contain courses of interest and a specific description of your academic goals at your prospective school of affiliation at Nagoya University. (Refer to the “NUPACE Course Overview” at <https://nupace.iee.nagoya-u.ac.jp/en/academic/course/overview.html> for links to syllabi.)

(2) Research students <R>:

Detailed research plan outlining your research goals/methods at Nagoya University. This should include information on specific fields of interest within your prospective graduate school and/or the names of laboratories which you intend to join.

(3) Medical Clerkship Short-term Training Students <U> /Research Students <G>:

In addition to providing a concrete description of your academic interests/goals at the School of Medicine on the designated NUPACE application form, complete the “Application for Visiting Student Clerkship” and attach it to the above study plan.

2. Official transcript of academic records to be issued in English by the institution presently being attended and, for transfer students, institutions of higher education previously attended. Graduate students should submit academic records for both undergraduate and graduate studies. If possible, students should include an explanation of the grading policy and/or grading scale of their home institutions, or provide the NUPACE Office with a link to the relevant website.
3. Official certificate of enrolment as a student to be issued in English by the institution presently being attended.
4. Letter of reference: The designated form should be completed by a faculty member, whose academic discipline is related to the applicant’s major field of study.
5. Score sheet of internationally-recognised language proficiency test. NUPACE requires exchange students to be proficient in either English OR Japanese. Unless they attend universities where English is the language of instruction, non-native English speakers must possess a TOEFL iBT score of 79, an IELTS overall band score of 6.0, a TOEIC score of 780, a CEFR average grade of B2, a CET-6 score of 485, or the equivalent. (*Students enrolled in universities in Scandinavia, The Netherlands, Germany, Austria, Singapore, Hong Kong, and at Bilkent University in Turkey, as well as students majoring in English are exempt from this requirement.*) Students intending to take regular university courses instructed in Japanese must possess N1/Level 1 of the Japanese Language Proficiency Test (JLPT).
6. Health certificate: Students are requested to use the designated NUPACE *Health Certificate* form available on the application site.
7. Copy of the information page of the applicant’s passport, where available.
8. Photograph: Solid-colour background, showing a close-up of the applicant’s full head and upper shoulders. The digital data should be uploaded onto the NUPACE online application site. Sunglasses/tinted glasses, or headwear should not be worn, unless this is for religious or medical reasons.
9. Declaration of Applicable Specific Categories. Only relevant to graduate students majoring or researching in the natural or applied sciences, engineering, and medicine, or those graduate students who are engaged in interdisciplinary studies, which include science-based components.
10. Statement of bank account balance or scholarship. (*This requirement applies to those students who intend to participate in NUPACE even if they are not nominated by Nagoya University for a Student Exchange Support Program <JASSO> scholarship. Students applying for a one-semester exchange should attach a bank balance or scholarship certificate verifying that they have funds equivalent to JPY 500,000; students applying for a one-year exchange need to verify that they have JPY 1,000,000. The bank account may be held in the name of the applicant, or a close family member.*)

Nomination Deadlines

International Offices of Nagoya University's partner institutions are requested to upload a list of their nominees for an exchange at Nagoya University onto the NUPACE website by the following dates: **NB.** Partner institutions will be provided with a link and access code one month prior to the nomination deadline.

Mid-September Admission 2026: Sunday, 1 March 2026
Early April Admission 2027: Thursday, 1 October 2026

Application Deadlines

The online application process must be completed, with all required documents uploaded, by the following dates:

Mid-September Admission 2026: Sunday, 15 March 2026
Early April Admission 2027: Thursday, 15 October 2026

Important Notes

1. As many partner institutions conduct a preliminary screening process for the purpose of selecting exchange students, it is strongly recommended that you consult with the International Office of your home university well in advance of the NUPACE application deadlines.
2. If you encounter any problems with the NUPACE online application system, please contact the NUPACE Office at nupace@t.mail.nagoya-u.ac.jp or +81-52-788-6119.

Notification of Results

The results of the preliminary document screening examination, as conducted by Nagoya University (and separate from the scholarship screening), will be made available to students as follows:

Mid-September Admission 2026: Mid-June 2026
Early April Admission 2027: Mid-January 2027

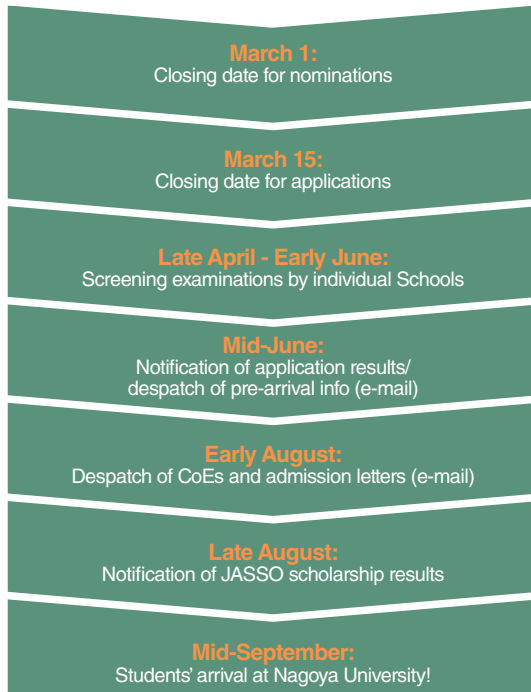

Students shall be officially notified of the results of their nomination for a JASSO "Student Exchange Support Program (Scholarship for Short-term Study in Japan)" by Nagoya University as follows:

Mid-September Admission 2026: Late August 2026
Early April Admission 2027: Late April 2027

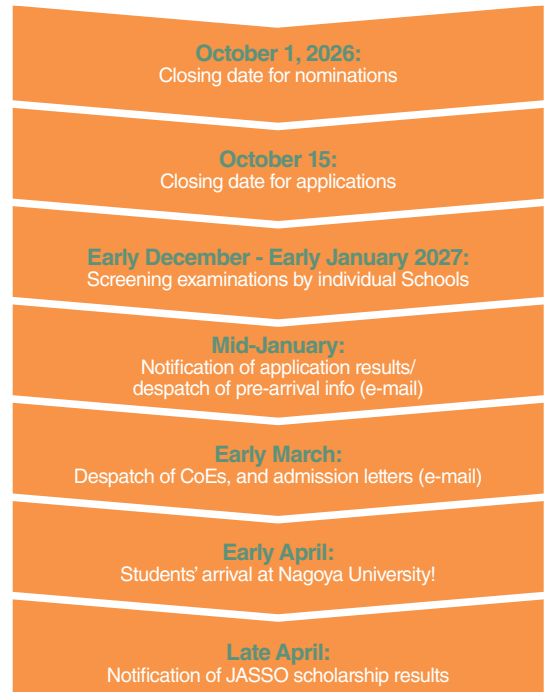

Admission Flowchart

Intended Period of Admission: September 2026

Intended Period of Admission: April 2027

Orientation Session

Financial Information

1. University Fees

The payment of tuition fees shall be waived for those students designated as “exchange students”, who are enrolled at partner institutions with which Nagoya University has concluded tuition waiver agreements either at the university-wide or inter-departmental level. Refer to *International Exchanges* on pp. 27-34.

Where, upon the request of partner institutions and approval by Nagoya University, students participate in NUPACE as fee-paying students, they will be required to pay the following tuition fees to their school of affiliation at Nagoya University.

a) *Special Undergraduate/Graduate Students:*

Tuition Fee ¥14,800 per credit, to be paid at the beginning of each semester.*
(Students are required to carry a minimum load of fifteen credits per academic semester.)

b) *Special Research Students/Special Short-term Training Students:*

Tuition Fee ¥29,700 per month, to be paid in a lump sum in the month of arrival.*

*Although accurate at the time of printing, fees are subject to change without notice.

2. Living Expenses

a) *Students residing in Nagoya University accommodation:*

Rent/Utilities: ¥30,000 - ¥40,000 per month
Food: ¥30,000 per month
Personal Expenses: ¥30,000 per month

The above is an estimation of the monthly expenditure of a reasonably thrifty international student at Nagoya University. Expenses will vary according to personal taste and lifestyle.

Student Column 1

Jan Mathis Winter,
majoring in Medicine at the University of Freiburg in Germany.

When I applied for NUPACE, I knew relatively little about Nagoya. I was familiar with Japan, but had only a vague sense of this city situated between the country’s better-known academic centres — and in retrospect, it turned out to be exactly the right place for me. My stay began at the Higashiyama Campus, where learning Japanese quickly became more than an academic exercise; it was the foundation for everything that followed. Courses in history and sociology helped me place language within its cultural and social context, while daily life on campus formed a world of its own: studying in the sun, conversations that began over coffee and continued far longer than planned, and a small café near campus, run by a man whose excellent filter coffee led to a friendship that has continued beyond my time in Nagoya. NUPACE felt open and enabling — rich in opportunities, yet supported by a reassuring structure. The second part of my stay took place at the University Hospital, where this sense of openness developed into something deeper. Alongside exposure to high-tech medicine, simulations and everyday clinical practice, genuine relationships emerged. I benefited from close supervision, regular lunches with my supervisor, and on my final day brought a carrot cake to the ward — meaning that half a hospital department on the other side of the world now has my grandmother’s recipe. Even joining colleagues on a skiing trip afterwards felt entirely natural. For me, NUPACE extends far beyond academics, creating encounters and experiences that endure.

JASSO Student Exchange Support Program (Scholarship for Short-term Study in Japan)

The Ministry of Education, Japan (MEXT), in collaboration with the Japan Student Services Organisation (JASSO), offers scholarships under the “Student Exchange Support Program”. The scholarship programme is intended to encourage student exchange between universities in Japan and their overseas partner institutions, promote understanding and friendship between the countries participating, and strengthen the internationalisation and competitiveness of Japanese universities. High calibre applicants, meeting the eligibility criteria below, may be nominated by Nagoya University to receive a scholarship.

1. Eligibility

The scholarship is open to students who at the time of application and admission to Nagoya University are enrolled in full-time courses of study at institutions of higher education outside of Japan, and who meet the following conditions:

- 1) Applicants must possess the nationality of a country having diplomatic relations with Japan, including Taiwan and the Palestinian Territories.
- 2) Applicants must be eligible to obtain a ‘student’ visa for the purpose of study in Japan. Dual/multi-nationals in possession of Japanese nationality are not eligible to apply for this scholarship.
- 3) Applicants must be enrolled at institutions having concluded a student exchange agreement with Nagoya University (refer to *International Exchanges* on pp. 27-34) and have their applications accepted by Nagoya University.
- 4) Applicants must possess excellent academic and personal records at their home institutions. A minimum grade point average of 3.1 on a scale of 4.0 (or the equivalent) for the academic year prior to admission is required.
- 5) Applicants must, for reasons of financial difficulty, be unable to finance their studies in Japan independently.
- 6) Applicants must, upon completion of the term of exchange, return to their home institutions to resume their studies or to be awarded with their degrees.
- 7) Applicants must not be recipients of scholarship awards from other organisations,

where the combined value of these additional scholarships exceeds ¥80,000 per month. (NB. Students are permitted to receive grants or awards besides the JASSO “Student Exchange Support Program” scholarship, provided that the combined value of additional scholarships does not exceed ¥80,000 per month.)

- 8) Applicants are not permitted to simultaneously apply for a Japanese Government (*Monbukagakusho*) Scholarship for the same academic year.
- 9) Applicants must, upon completion of their term of scholarship, submit a study report to Nagoya University.

2. Scholarship Provisions

A monthly stipend of ¥80,000 for between four and eleven months. School of Medicine students engaging in clinical practice may be permitted to receive the scholarship for a period of three months.

3. Application Method

No application is necessary. Nagoya University will nominate high calibre applicants to JASSO on the basis of, 1) the standard of their applications (GPA scores are particularly important), 2) the total number of scholarships allocated to Nagoya University by JASSO, and 3) institutional balances.

4. Notification of Results

Students shall be officially notified by Nagoya University of the result of their application for a JASSO “Student Exchange Support Program” scholarship as follows:

- 1) Late August 2026, for students applying for mid-September 2026 entry.
- 2) Late April 2027, for students applying for early April 2027 entry.

Student Column 2

Chen Heming, majoring in Cultural Heritage and Museology at Fudan University in P.R. China.

During my studies, I was able to fully immerse myself in the subjects I am truly passionate about, which gave me many new academic and cultural perspectives. The courses I took broadened my understanding of culture and history, and helped me develop a more international outlook for my future studies. I met people from diverse cultural backgrounds and successfully engaged in collaborative learning with them in an open, inclusive, and supportive environment. In addition, this was my first time taking university courses in English and experiencing a multilingual environment. This experience has equipped me with practical language skills and strengthened my motivation to continue learning languages, as I hope to build a career in an international context in the future.

My entire experience here in Japan—the academic journey, the cultural explorations, and the social interactions—has been smooth and enriching. I am grateful to all the kind people I have met.

Besides, this was my first time living alone, dealing with all the ups and downs by myself. During my stay, I actually went through some quite difficult personal matters. I faced them, worked through the problems, and grew a lot, supported all the while by the friendly environment around me. I also had a highlight moment at the winter party, where I brought to life a performance I had designed. Perhaps the most important achievement of the whole experience is that I finally discovered my own strength. I can even feel that I have already become a more confident version of myself.

Student Column 3

Francis Omondi,
majoring in Psychology at the University of Nairobi in Kenya.

The NUPACE program was one of the most transformative turning points in my life. I am especially grateful for the JASSO Scholarship, the support of which made it possible for me to pursue such a remarkable academic path.

Living in Japan and studying at Nagoya University profoundly reshaped my global perspective as an international student. My experience abroad expanded not only my academic understanding but also my worldview. In my view, Nagoya University is not merely a learning institution; it is a vibrant intellectual community that nurtures young people into responsible global citizens

who contribute to their societies—just as I hope to do. The professors were highly supportive and accommodating, always willing to guide, mentor, and create an environment where I could thrive both academically and personally. Both teaching and non-teaching staff contributed immensely to making my life and studies in Japan smooth, engaging, and deeply enriching.

During my time in Japan, I immersed myself in both traditional and modern Japanese culture—attending *izakaya* dinners, *nomikai* gatherings, *karaoke* sessions, and small social meet-ups with Japanese friends and fellow international students from around the world. The warmth, humility, and kindness of the Japanese people made daily life easier and deeply meaningful. These experiences, together with peer-to-peer classroom discussions, allowed me to exchange ideas globally and critically engage with diverse perspectives.

I can confidently say that I am a far better person than the one who first arrived in Japan. The growth has been immense. It is also worth noting that, according to available records, I was the first sub-Saharan African student to participate in the NUPACE program since its establishment—something I carry with pride and responsibility. To fellow African students, I strongly encourage you to explore such opportunities. If I, Francis from Kenya, managed to adapt, succeed, and truly enjoy the experience, then any determined student from the African continent can do it—and should do it. Yes, we can.

If time were reversed, I would choose Japan and the NUPACE program again without hesitation. My sincere gratitude goes to the Nagoya University community, the Japanese people, the Japanese government, the JASSO Scholarship, and the entire international community who made this life-changing experience possible. 本当にありがとうございました, NUPACE.

Student Column 4

Mao Yuqi,
majoring in Architecture at Tianjin University in P. R. China.

The time I spent in Nagoya as a NUPACE exchange student will always be a unique mark in my life. I had never felt anything so dreamlike before. Here, I came to know a hidden part of myself.

The open, free, international, and friendly atmosphere embraced me and allowed my heart to fly. I used to be a shy, introverted person who disliked talking to anyone I didn't know. But as soon as I started my exchange at Nagoya University, I met countless strangers from different cultures who were talkative, helpful, caring, and always smiling. Some of them gradually became my friends. Through daily conversations and time spent together, I was able to catch glimpses of many cultures around the world, which broadened my perspective. Now, I want to travel more and see the beautiful world and meet wonderful people.

The living environment was warm and comfortable as well. I lived in International Residence Daiko, which had two modern common rooms on each floor and a spacious lobby on the ground floor. These facilities made it easy for residents to connect closely with one another. We met every day in the common rooms and greeted each other warmly. One of my friends said that every time she returned to the dorm, she always saw people waving to her from the common room, and it made her feel at home. I truly loved these warm connections—something I had never experienced before.

Here, every day felt like a new beginning. It made me feel that there were endless things to explore. My only regret is that the time was too short.

S tudent Visas and Entry to Japan

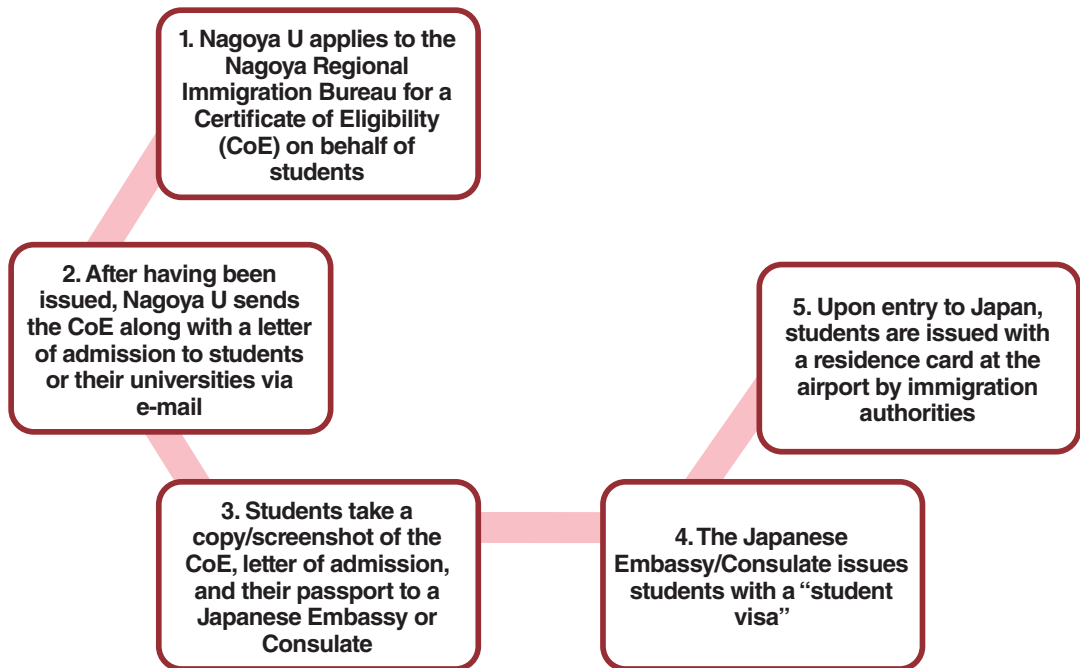

International students intending to pursue studies in Japan must be in possession of a valid passport issued by their country of citizenship. Prior to embarking for Japan, they are also required to apply to the nearest Japanese diplomatic mission (embassy or consulate) for a “student” visa. In the case of NUPACE students, a “student” visa is usually issued after the embassy/consulate obtains the applicant’s “Certificate of Eligibility for Status and Residence”.

Nagoya University applies for “Certificates of Eligibility” on behalf of prospective NUPACE students and, once applications have been processed, sends the “Certificates” directly to the students via e-mail. It is imperative that when applying for a “student visa”, students take their passport, as well as a print-out of their letter of admission and “Certificate of Eligibility” to a Japanese Embassy or Consulate.

NB.

1. Each country has different stipulations and procedures for the purpose of issuing passports and visas. It is the responsibility of the student to enquire at his or her local Japanese diplomatic mission which documents are required, and if necessary, to request them from Nagoya University.
2. Dual/multi-nationals in possession of Japanese nationality should not apply for a “student” visa. Students possessing Japanese nationality will be expected to enter Japan on their Japanese passports.

Certificate of Eligibility/Student Visa Flowchart:

Student Column 5

Niklas Latzel,
majoring in Management at the Technische Universität Braunschweig in Germany.

Hello future NUPACE students,
If I can say one thing upfront, it would be: do it.

I had such an amazing time here in Nagoya. I met my first friends on the train to the dormitory on move-in day, and some of them have even become my closest friends to this day. So don't worry—there will be plenty of people and personalities to connect with, learn from, and share your study-abroad experience with.

Living in Nagoya itself is wonderful, no matter which dormitory you are placed in. The city has so much to offer and gives a more authentic vibe compared to other major cities, since international tourism is not as big here. That actually makes it an even better place to experience daily life in Japan. The location is also incredibly convenient: you can visit the sea, go skiing in the mountains, or travel to Tokyo, Kyoto, and many other interesting places easily by public transportation. And if you have a driving license, I highly recommend renting a car with friends now and then to explore the country at your own pace. Those trips are among my favourite memories from my stay.

Since I was in Nagoya during the fall term, I got to experience late summer, autumn, and winter. The variety of scenery throughout the region—and the country—was amazing.

At the university, there were many interesting courses for every major, as well as language classes and club activities where you can meet local students outside of class. Even as a second-year master's student, I still found so much to learn.

Thank you to everyone and everything that made my stay such a great experience.

Student Column 6

Shi Haoyang,
majoring in Architecture at Tianjin University in P. R. China.

Life during NUPACE has been an unexpected journey for me. I had the chance to meet people from all over the world, and it was here that I truly realised how communication can transcend boundaries—whether they are language, culture, nationality, or gender. One of the best things about NUPACE is the academic freedom it offers. You can explore almost any subject you are interested in, even if it is not related to your major. I encourage you to see your time here as a golden opportunity to embrace new experiences and discover where your true passions lie.

Nagoya itself is a wonderful city to live in. It offers a perfect balance between modern attractions and the quiet charm of traditional Japanese life. The pace here is pleasantly relaxed, allowing you to find your own rhythm during your exchange. While you enjoy your studies, make sure to set aside time to travel and enrich your experiences outside the classroom. Every season has something magical to offer: cherry blossoms in spring, vibrant festivals and fireworks in summer, and stunning maple leaves in autumn.

Looking back, choosing NUPACE is a decision I will never regret. I will always cherish the memories I've made here, and I hope you create some unforgettable ones of your own.

Student Life

1. Housing

Nagoya University operates two mixed Japanese/international student dormitories, and a number of dormitories used exclusively by international students. Currently, all NUPACE students are housed in university accommodation; however, given fluctuations in room availability, students are not generally able to request allocation in a given dormitory, unless they have medical reasons for doing so. Instead, the NUPACE Office will apply for accommodation on the student's behalf. NUPACE students are generally accommodated in *International Ohmeikan*, *International Residence – Yamate North* (both a ten-minute walk from Higashi-yama campus), and *International Residence – Daiko* (a twenty-minute subway ride). In *International Ohmeikan* and *International Residence – Daiko*, each individual study/bedroom is fully furnished and installed with a unit bathroom; whilst kitchens are shared. In *International Residence – Yamate North*, each individual study/bedroom is fully furnished and installed both with a unit bathroom and kitchenette. Refer to <https://nupace.iee.nagoya-u.ac.jp/en/life/accommo.html> for more detailed information.

2. Health Care

All NUPACE students are required to join the Japan National Health Insurance (JNHI) programme. For a monthly fee of approximately ¥1,700, JNHI policyholders are entitled to a 70% discount on most medical and dental fees incurred. NUPACE appreciates that many incoming students are covered by private/home university insurance schemes. However, in consideration of the fact that, 1) medical expenses

International Ohmeikan

in Japan are relatively high, 2) Japanese medical facilities do not generally accept foreign insurance policies in lieu of payment and, 3) students will, therefore, have to wait a minimum of two months to be reimbursed by their home insurance policies, NUPACE requires Japan National Health Insurance subscription from all students.

Nagoya University houses a Health Administration Office at which emergency treatment for illness and injury is performed free of charge. The Office additionally serves to refer students to hospitals, where deemed necessary.

3. Life, Accident and Personal Liability Insurance Schemes

The Nagoya University Co-operative offers life insurance and personal liability insurance options at extremely competitive rates. All NUPACE students are required to take out personal liability insurance during their exchange at Nagoya University at the reasonable cost of ¥1,800 per year.

4. Counselling

All Schools at Nagoya University appoint international student advisors who are available to assist exchange students with academic matters and aspects of daily life in Japan. In addition, the centralised Advising and Counselling Services (ACS) and the Ability Support Centre provide specialised support for international students, particularly in relation to mental health and disability.

Complementing the services offered by these professional units, the faculty and staff of the NUPACE Office and the Student Exchange Division endeavour to render the stay of overseas students a more comfortable one by providing assistance in areas such as university administration, academic matters, scholarships, accommodation, immigration and residence procedures, daily life, and general health.

5. Computer/Internet Access

Students are strongly recommended to bring their laptops to Japan. An information security workshop will be conducted during the pre-

semester orientation session, and completion of requisite procedures will enable students to enter the Nagoya University network.

Internet services are available in all university accommodation.

6. Tutors (Buddy System)

All NUPACE students are eligible to receive the services of a tutor, a fellow student majoring in a similar field of study. Tutoring assistance is available for fifteen to twenty-five hours per semester, and tutors' responsibilities may include, 1) assistance with university paperwork and official procedures after arrival, 2) advice on the use of university facilities related to academic studies, 3) assistance and guidance with regard to lectures, research, experiments, course preparation, and reports, 4) Japanese language and conversation support, and 5) the introduction of Japanese culture and customs.

7. Extracurricular Activities

Nagoya University has a wide range of cultural and sports clubs, officially boasting fifty-three of the former and forty-three of the latter, with a total membership of 3,500 students. These provide international and Japanese students with an excellent opportunity to mix, and thus participate in a cross-cultural learning experience.

8. Cross-cultural Exchange Groups

There is a host of volunteer groups involved with international students both amongst the

campus community and outside. These depend for their existence on the co-operation of each and every international student, and greatly contribute to enriching student and community life. Information on these groups will be made available at the general orientation for NUPACE students.

9. Exchange Activities outside Nagoya

During the spring, summer and winter vacations, various associations host home-visits or camping activities. If taken advantage of properly, these present an excellent opportunity to deepen one's knowledge of Japan at comparatively little cost. Home-visit possibilities include places as far afield as Hokkaido and Kyushu.

10. Part-time Work

NUPACE students intending to engage in remunerative activities in Japan should declare that they wish to work part-time at the port of

entry and receive a stamp of permission on their Residence Card at this time (application forms are available at major airports). Where permission is granted, students may work for a maximum of twenty-eight hours per week during the semester, and up to eight hours per day during long vacations.

11. Climate & Clothes

The climate in Nagoya is distinguished by extreme heat and humidity in summer and marked seasonal changes. In general, autumn is dry, cool, and pleasant. Winter (December to February) can prove cold with minimum temperatures of -3°, highs of 7°, piercing winds and the occasional snowfall. Spring (March to May) is the time of cherry blossoms and new beginnings, including the Japanese academic and fiscal years. Summer, heralded by the 'rainy season' in June, is exceedingly hot and muggy with temperatures peaking at around 38° in August. Temperatures start to drop in mid-

September and around this time the Japanese archipelago experiences the 'typhoon season'.

Students should bear these seasonal changes in mind when choosing what clothes to bring to Japan. They are also advised that it may prove challenging to find larger than average clothes and shoe sizes.

Winter at Nagoya University (Courtesy of Lennart Klar)

Student Column 7

Muhammad Fikri Rivaldi,
majoring in English Education at the State University of Surabaya in Indonesia.

My experience in NUPACE has been very special and meaningful to me. This was my first time joining a student exchange program, and it feels like a major milestone in my life. Living and studying in a different country has given me many new perspectives, not only academically but also personally. Every day, I learned something new—whether from my classes, my friends, or my daily activities.

One of the most valuable parts of this experience was being able to live alongside Japanese people and understand their culture more closely. At the same time, I made many friends from different countries and cultural backgrounds. We shared stories and exchanged our points of view, and this truly helped me become more open-minded and more confident in communicating with others.

Nagoya is also a wonderful city to live in. There are many interesting places to visit, such as castles, the port area, aquariums, museums, and shopping districts. The city is clean, organized, and comfortable, which made my stay even more enjoyable.

Overall, I have never regretted joining this program. I feel very grateful to have been part of this exchange experience. NUPACE has contributed greatly to my personal growth and will always remain an important chapter in my life.

NAGOYA and AICHI – Hot & Cool

Economic Power House and Mono-zukuri Heartland

Aichi Prefecture, of which Nagoya is the prefectural capital, is home to some of the world's leading next-generation automotive, aerospace, and environment and energy industries. With its preeminent manufacturing base, Aichi ranks second, after Tokyo, in having the highest average income per capita amongst Japan's forty-seven prefectures and, according to JETRO, its gross production surpasses that of Denmark.

On the other hand, the comparatively low price of commodities makes Nagoya an appealing city to live in, and this may account for the prefecture's continuing population growth.

A vibrant economy, colourful history, comfortable living environment, and sophisticated transportation network attract people to this region of Japan, both nation- and world-wide.

World-leaders of the automotive industry are based in Aichi Prefecture.

Nagoya Station Area

A Subculture Mecca

Historical Superheroes Today

Nagoya Omotenashi Bushotai, one of the city's live attractions, comprises a group of six historical warlords, including Oda Nobunaga, Toyotomi Hideyoshi, and Tokugawa Ieyasu, who all hail from this region. You can witness their heroics at samurai performances around Nagoya Castle.

©2009 Nagoya Omotenashi Busho-Tai Secretariat

In the Osu area of Nagoya, there are a number of shops and restaurants that cater to *otaku* culture. Osu has an open ambience for cultural diversity regardless of age, gender, or nationality. Come and enjoy the annual *World Cosplay Summit*, where you can encounter approximately 15,000 participants walking in parade.

Culinary Delights of Nagoya

Hitsumabushi

Aichi Prefecture is one of Japan's top eel farming regions, and its famed eel delicacy, *hitsumabushi* has its origins at the end of Meiji Era. Chopped grilled eel is served with sweet soy sauce on top of cooked rice.

Relish the different tastes of *hitsumabushi* with condiments such as wasabi, seaweed, *mitsuba* (Japanese parsley), *dashi* soup, etc.

Miso Oden

Miso is a traditional Japanese paste produced by fermenting rice and soybeans. *Oden* is a Japanese-style hot pot dish, which contains a variety of ingredients, such as daikon radish, boiled eggs, deep fried tofu, etc. Try tasting the combination.

Sake

In Aichi Prefecture, there are forty-two historical *sake* breweries, which produce excellent *Sake*. You can visit *sake* cellars for a tasting session.

Appendix 1 – Exchange Partner Institutions

Applicants to NUPACE must be enrolled in universities having concluded academic exchange agreements with Nagoya University at either the inter-university or inter-school level. Students enrolled in departments having concluded an inter-school/faculty agreement will be affiliated to the respective partner school at Nagoya University.

As of February 2026, Nagoya University has concluded a total of 502 agreements, including student exchange memoranda (tuition waiver agreements) with 253 universities, departments, and research institutes, as denoted by asterisks (*) below.

Region	Location	Institute	Inter-university (U)/Inter-school
<i>Africa</i>	<i>Egypt</i>	Assiut University, Faculty of Science	*Science
		Cairo University	U
		Tanta University, Faculty of Engineering	*Engineering
	<i>Ghana</i>	University of Ghana, Faculty of Social Studies	International Development
		African Institute for Capacity Development (AICAD)	ICREA
	<i>Kenya</i>	Kenya Agricultural and Livestock Research Organisation (KALRO)	U
		University of Nairobi	*U
	<i>South Africa</i>	Human Sciences Research Council (HSRC)	International Development

Campus Maps

Tsurumai Campus

Daiko Campus

Graduate School of Medicine / School of Medicine

- A Medical Science Research Building 1
- B Medical Science Research Building 2
- C Medical Science Research Building 3
- D Basic Medical Research Building
- E Basic Medical Research Building Annex
- F Center for Research of Laboratory Animals and Medical Research Engineering (Division for Research of Laboratory Animals)
- G Medical Library / Medical Museum / Co-op Cafeteria
- H Welfare Facility
- I Kakuyu Kaikan (Alumni Hall)

University Hospital

- 1 Outpatient Building
- 2 Central Consultation Building A
- 3 Central Consultation Building B
- 4 Ward Building
- 5 Residence for Nurses A
- 6 Residence for Nurses B
- 7 Oasis Cube (Welfare facility)
- ※ RMH Nagoya

- 1 School of Health Sciences (Main Building)
- 2 School of Health Sciences (East Building)
- 3 School of Health Sciences (South Building)
- 4 Annex to School of Health Sciences
- 5 Energy Center
- 6 Research Building
- 7 Student Hall
- 8 Researchers Village Daiko
- 9 Work Support Office · Garage
- 10 Gymnasium
- 11 Tennis Courts
- 12 Ground
- 13 Kyudo (Japanese Archery) Hall
- 14 Daiko Glass Greenhouse
- 15 International Residence Daiko

Location

Higashiyama Campus

Open Facilities

C3 5 Common Nexus (ComoNe)	D2 10 Chemistry Gallery (Noyori Materials Science Laboratory)
B3 2 NU Library (Central Library)	C2 4 2008 Nobel Prize Exhibition Hall (E and S Building)
D4 1 NU Museum (Furukawa Hall)	B2 6 Akasaki Institute
B5 2 NU Museum Botanical Garden	F3 10 C-TECs AMANO Gallery
C2 5 Disaster Mitigation Research Building	D4 2 Information Plaza
C4 6 Gender Research Library	D1 2 University Archives (University Headquarters Annex)

Convention Facilities

D3 5 Toyoda Auditorium / Symposium	C2 1 FUJI Hall (Emergent Innovative Engineering Building)
E3 1 Noyori Conference Hall	C2 1 TEL Auditorium (Emergent Innovative Engineering Building)
C4 3 Kitan Hall (Law and Economics Shared Facilities Building)	C5 3 Asian Community Forum (Asian Legal Exchange Plaza)
D2 7 Sakata and Hirata Hall (Science South Building)	C2 7 Okuma Hall (Okuma Machine Tool Engineering Building)
C3 1 Lecture Hall (IB Building)	B4 4 Conference Hall (Integrated Research Bldg. for Humanities & Social Sciences)
C2 4 E and S Hall (E and S Building)	

Restaurants

B5 3 South Cafeterias	D1 4 Restaurant Hana no Ki
C2 2 North Cafeterias~Polaris Dining~	D3 5 Restaurant Universal Club
D1 3 Forest Dining Hall	C2 4 Restaurant Chez Jiroud

Cafeterias

B3 2 Starbucks Coffee	C4 6 Cafe Blanc
C2 6 Seattle Espresso Cafe	F3 10 CAFÉ de Mon CIRFE
B4 1 reg reg	

Shops

B5 4 NU CO-OP South Shops	F3 7 Labo Shop
C2 2 NU CO-OP North Shops~Polaris shop~	C3 1 IB Café (IB Building)
D1 3 Books Fronte	B4 1 Pranzo
B4 2 Family Mart Nagoya University Store	D1 4 Science Shop
C3 1 Family Mart Nagoya University IB Building Store	

University Headquarters : Administration Services

D3 7 University Headquarters Building 1	C4 1 Graduate School of International Development Building
D4 4 University Headquarters Building 2	D3 6 Student Support Building
E4 1 University Headquarters Building 3	C2 6 National Innovation Complex (NIC)
D4 3 University Headquarters Building 4	C3 2 Information Technology Center

Schools / Graduate Schools : Administration Department

B4 4 ADept. Humanities & Social Sciences (Integrated Research Bldg. for Humanities & Social Sciences)	E2 1 ADept. School of Agricultural Sciences / Graduate School of Biographical Sciences
B4 1 ADept. School of Informatics / Graduate School of Informatics (Liberal Arts and Sciences Main Building)	D2 2 ADept. Graduate School of Environmental Studies
D2 11 ADept. School of Science / Graduate School of Science / Graduate School of Mathematics	F3 7 ADept. Graduate School of Pharmaceutical Sciences / Cellular & Structural Physiology Institute
C2 4 ADept. School of Engineering / Graduate School of Engineering (E and S Building)	F3 3 ADept. Research Institutes (Research Institutes Building 1)
	B3 2 Library Administration (Central Library)

School of Humanities / Graduate School of Humanities

C4 1 Graduate School of International Development Building	B4 3 School of Humanities / Graduate School of Humanities Building
A4 2 Humanities Common Facility Building	B4 4 Integrated Research Bldg. for Humanities and Social Sciences
B4 1 Liberal Arts and Sciences Main Building	

School of Education / Graduate School of Education and Human Development

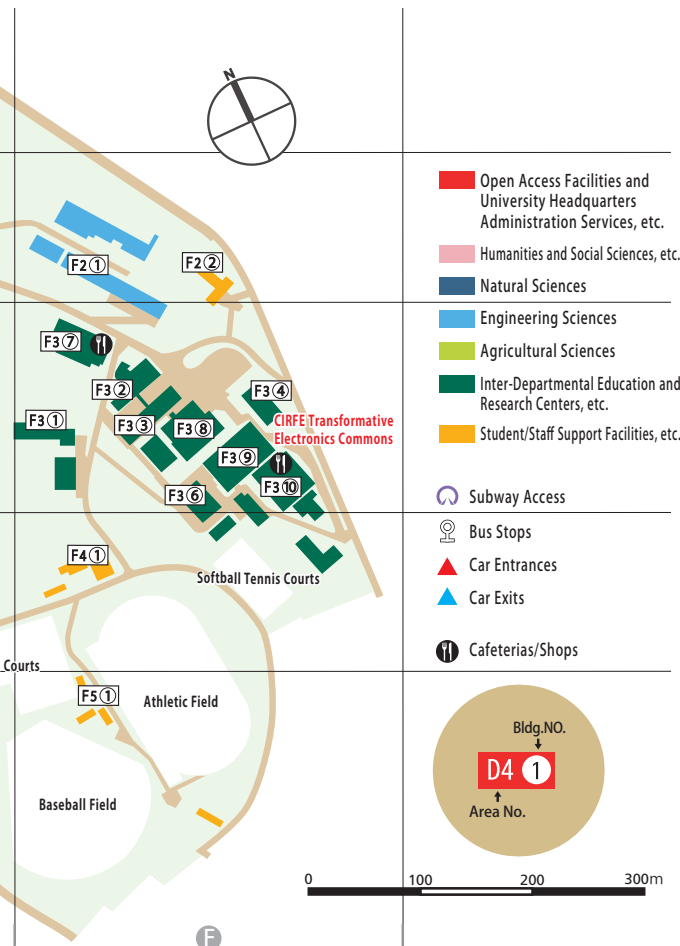

A2 1 Affiliated Upper and Lower Secondary Schools	B4 5 School of Education / Graduate School of Education and Human Development Bldg.
--	--

School of Law / Graduate School of Law

C5 3 Asian Legal Exchange Plaza	B5 5 Law School
C4 4 School of Law / Graduate School of Law (Law and Economics Shared Facilities Bldg.)	

School of Economics / Graduate School of Economics

C4 2 School of Economics / Graduate School of Economics (Law and Economics Shared Facilities Bldg.)
--

School of Informatics / Graduate School of Informatics

- C3 1** IB Building (Integrated Building)
- A4 3** Graduate School of Informatics Building
- B4 1** Liberal Arts and Sciences Main Building
- C2 6** National Innovation Complex(NIC)
- D3 3** School of Science / Graduate School of Science, Building B

School of Science / Graduate School of Science

- D3 2** Building A
- D3 3** Building B
- D2 11** Building C
- D2 9** Building D
- D2 5** Building E
- D2 4** Building F
- D2 3** Building G
- D3 1** Facilities for Low Temperature Research
- D2 6** Science Hall
- C3 4** Shared Facilities Building
- D2 7** Science South Building
- D2 6** Science and Agricultural Building

School of Engineering / Graduate School of Engineering

- B2 5** Building 1
- B3 3** Building 2
- B3 1** Building 3
- C2 3** Building 5
- F2 1** Building 6
- C1 3** Building 8, North Wing
- C1 4** Building 8, South Wing
- C1 2** Building 9
- C2 1** Emergent / Innovative Engineering Building
- C2 4** Engineering and Science Building
- C3 1** IB Building (Integrated Building)
- C2 7** Okuma Machine Tool Engineering Building
- B2 2** Aerospace and Mechanical Engineering Building

School of Agricultural Sciences / Graduate School of Bioagricultural Sciences

- E1 1** Building A
- E2 5** Building B
- E2 1** Administration Building
- E2 4** Lecture Building
- D2 6** Science and Agricultural Building

Graduate School of International Development

- C4 1** Graduate School of International Development Building

Graduate School of Mathematics

- D3 4** Graduate School of Mathematics Building

Graduate School of Environmental Studies

- C2 4** E and S Building
- F3 1** Common Building, Graduate School of Environmental Studies
- D2 2** Environmental Studies Hall
- B4 1** Liberal Arts and Sciences Main Building
- D2 5** School of Science / Graduate School of Science, Building E

Graduate School of Pharmaceutical Sciences

- F2 1** School of Engineering / Graduate School of Engineering, Building 6
- F3 7** Pharmaceutical Sciences Building

Institute of Liberal Arts and Sciences

- A4 1** Liberal Arts and Sciences Building A
- B4 1** Liberal Arts and Sciences Main Building

Doctoral Education Consortium

- D2 11** School of Science/Graduate School of Science, Building C

Research Institutes / Inter-University Service Facilities

- E3 2** Research Institute of Environmental Medicine
- F3 10** Institute of Materials and Systems for Sustainability (C-TECs)
- F3 9** Institute of Materials and Systems for Sustainability (C-TEFs)
- F3 6** Institute for Space-Earth Environmental Research (Research Institutes Building II)
- B2 1** Institute of Materials and Systems for Sustainability (Research Facility for Advanced Energy Conversion)
- C1 1** Institute of Materials and Systems for Sustainability (Research Facility for Advanced Science and Technology)
- C3 2** Information Technology Center
- F3 6** Institute of Materials and Systems for Sustainability (Research Laboratory Building)
- D1 1** Institute of Materials and Systems for Sustainability (High Voltage Electron Microscope Laboratory)
- F3 3** Institute for Space-Earth Environmental Research (Research Institutes Building I)
- F3 8** Institute of Materials and Systems for Sustainability (Research Institutes Building II)
- D4 1** Institute for Space-Earth Environmental Research (Furukawa Hall)
- C2 6** Center for Low-temperature Plasma Sciences (NIC)
- C2 1** Institute for Glyco-core Research (Emergent Innovative Engineering Building)

Research Center of Health, Physical Fitness and Sports

- E5 1** Research Center of Health, Physical Fitness and Sports
- C3 3** Health Administration Office

Nagoya University Institute for Advanced Study

- F3 2** Institute for Advanced Research (Institute for Advanced Research Hall)
- D2 1** Institute of Transformative Bio-Molecules (ITbM)
- C2 4** Kobayashi - Maskawa Institute for the Origin of Particles and the Universe (KMI) (Engineering and Science Building)

Integrated Research Consortium on Chemical Sciences

- D2 10** Noyori Materials Science Laboratory

Institutes of Innovation for Future Society

- F3 4** Materials Research Laboratory for Green Vehicle
- C2 6** National Innovation Complex (NIC)

Global Multi Campus

- C5 1** Asian Satellite Campuses Section (International Center)
- C5 3** Research and Education Center for Japanese Law
- D2 2** Center for Global Environmental Leaders (Environmental Studies Hall)
- C5 3** Center for Asian Legal Exchange (Asian Legal Exchange Plaza)

Other Facilities (Inter-Departmental Education and Research Centers)

- E2 3** Radioisotope Research Center
- D2 4** Center for Gene Research
- C5 1** Language Education Center
- C2 5** Disaster Mitigation Research Center
- B4 4** Center for the Studies of Higher Education
- B4 5** Psychological Support & Research Center for Human Development
- F2 1** Cellular and Structural Physiology Institute
- D1 2** Center for Gender Diversity (University Headquarters Annex)
- C1 4** Synchrotron Radiation Research Center
- E2 2** Bioscience and Biotechnology Center
- B2 4** Deep Tech Serial Innovation Center (Venture Business Laboratory)
- E3 4** National Composites Center
- E1 1** International Center for Research and Education in Agriculture
- D2 10** Research Center for Materials Science
- C5 3** Center for Asian Legal Exchange (Asian Legal Exchange Plaza)

Industry-Academia-Government Cooperation Facilities

- E2 6** Tokai Open Innovation Complex NAGOYA
- B2 3** Incubation Facility
- F3 4** Materials Research Laboratory for Green Vehicle
- C2 6** National Innovation Complex (NIC)
- B2 4** Venture Business Laboratory

Student Support Organizations

- B4 1** Ability Support Center (Liberal Arts and Sciences Main Building)
- C5 1** Global Engagement Center (International Center)
- C5 2** Harassment Consultation Center (NU Yakumo Kaikan)
- D3 6** Student Counseling Center / Career Support Center (Student Support Building)
- C3 1** Global Engagement Center Advising & Counseling Services (IB Building)

Sports Facilities

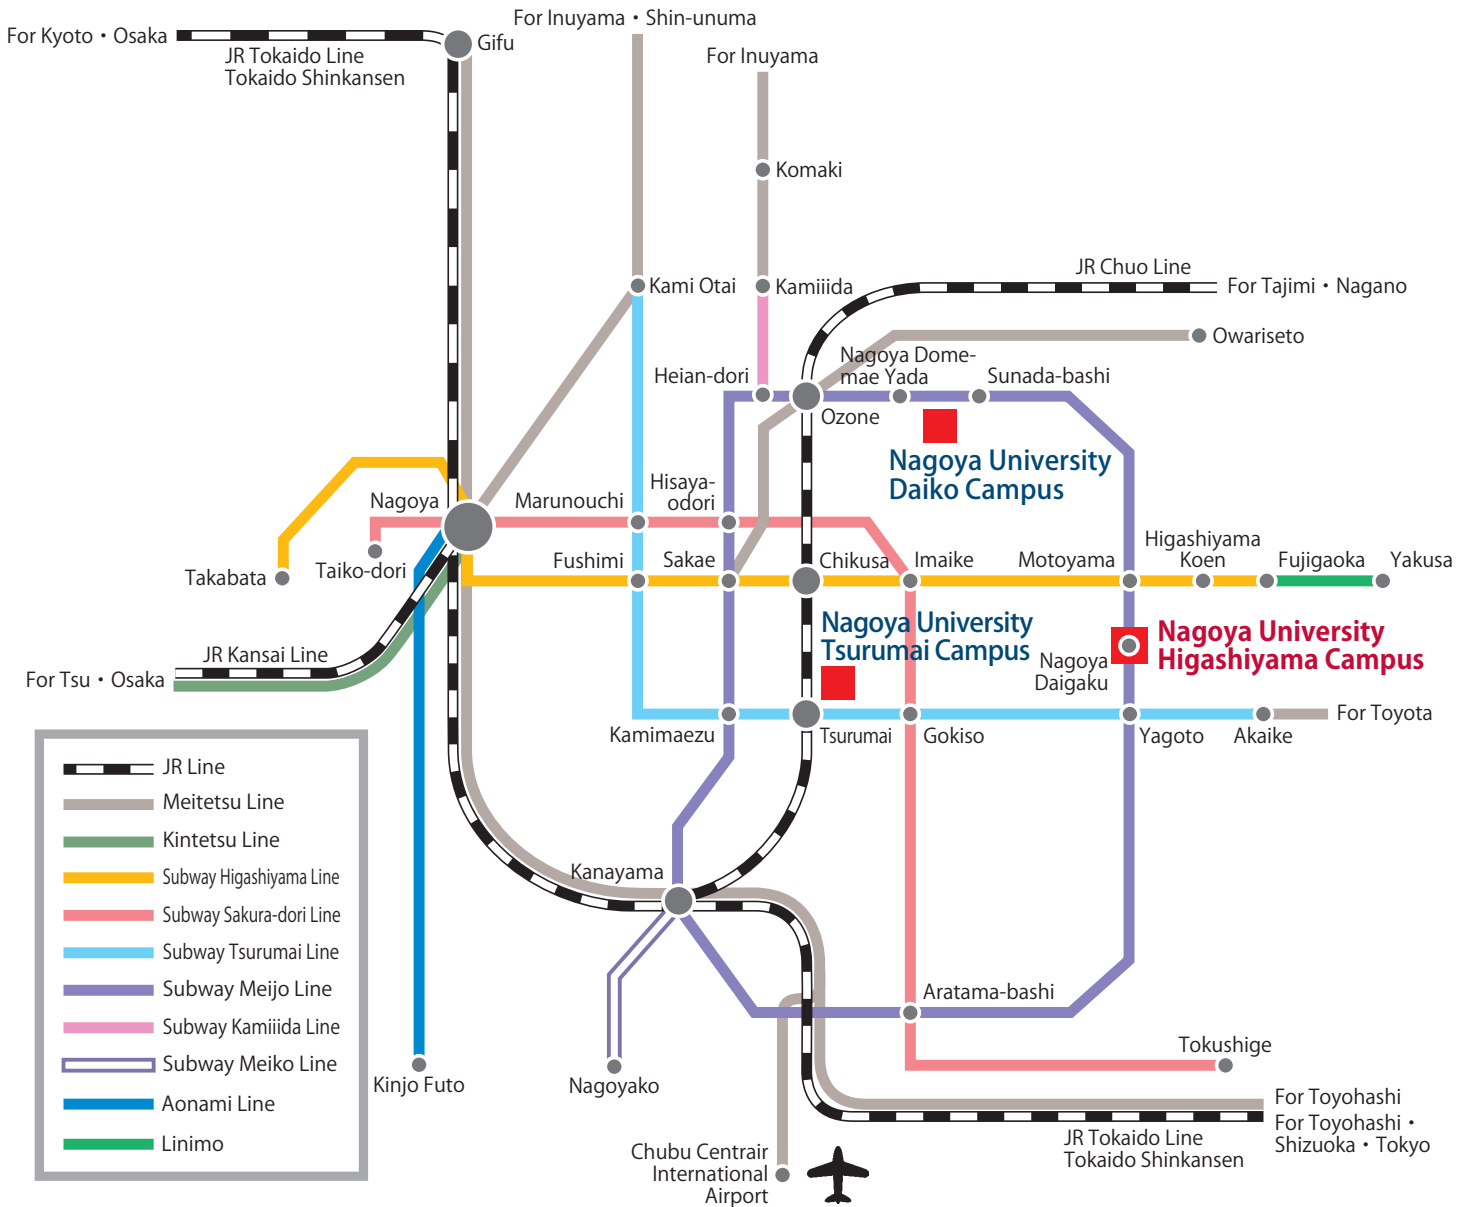

- E5 2** New Gymnasium
- F5 1** Student Activities Complex Administration Building
- F4 1** Training Camp Facility
- B5 1** Gymnasium / Indoor Swimming Pool

Other

- E4 2** International Residence Higashiyama
- B1 1** Student Hall
- D1 4** Green Salon Higashiyama
- F2 2** Researchers Village Higashiyama

Access to Nagoya University

- To Higashiyama Campus From Nagoya Railway Station: 20 minutes by subway. Take the Higashiyama Line to Motoyama Station, then transfer to the Meijo Line, alighting at Nagoya Daigaku Station.
- To Tsurumai Campus From Chubu Centrair International Airport to Nagoya University: At Centrair take the Meitetsu Line to Kanayama Station. From Kanayama Station take the Subway Meijo Line (counter-clockwise), alighting at Nagoya Daigaku Station. (21 minutes by subway)
- To Daiko Campus Take the JR Chuo Line or the Subway Tsurumai Line to Tsurumai Station, and walk 5 minutes.
- To Nagoya Railway Station From Tokyo Railway Station: 1 hour 40 minutes by Shinkansen (bullet train).
From Osaka Railway Station: 1 hour by Shinkansen (bullet train).

Memo

A series of horizontal dotted lines for writing.

Experience NUPACE! Experience Nagoya! Experience Japan!

Embark on an academic journey that transcends borders, where tradition meets innovation, and global perspectives take root in one of Japan's most dynamic regions.

Whether you seek academic challenge, cultural immersion, or the chance to forge lifelong friendships across borders, NUPACE offers a transformative experience that extends far beyond the classroom.
